

MIX 'N MATCH

Match the words to the pictures

Fire alarm

Fire extinguisher

Flame

Fire Fighter

Fire hydrant

Fire Truck

Fire SAFETY RULES

- 1** Know and practice your family fire escape plan.
- 2** Learn the number for the fire department in your community.
- 3** If your clothes catch fire, remember always to STOP, DROP and ROLL on the floor to smother the flames.
- 4** If there is smoke in the air, crawl on the floor to your escape route. The air near the floor is safer to breathe. Hold a wet cloth or towel over your mouth and nose so you don't breathe in the smoke.
- 5** Call the fire department from a safe place and then go to the safe meeting place you planned with your family.
- 6** DO NOT GO BACK INTO THE HOUSE FOR ANY REASON

Every year in Canada, children are injured or die as a result of fires. Burns are the leading cause of death from injury for Saskatchewan children ages one to four. Having a working smoke alarm and knowing what to do when the smoke alarm goes off will help keep your family safe if there is a fire.

Having a fire escape plan for your home will help to reduce panic in the event of a fire. This route will help family members get out of the home safely during a fire. Here are some easy steps to follow in making a plan:

- 1** Draw a simple floor plan of your home.
- 2** Plan two ways out of each room.
- 3** Choose a special meeting place outside the home where all family members will meet after escaping. This place could be by the back fence, beside the garage or at the neighbour's house. Mark this place on the escape plan.
- 4** Have a fire drill at least twice a year. During the drill make sure that:
 - Everyone understands the planned escape routes;
 - Doors and windows can be opened easily;
 - If an escape ladder is necessary, that it is where it should be and that everyone knows how to use it;
 - Someone is assigned to help small children and the elderly; and
 - The list of important things to remember in the event of a fire is reviewed.

Fire injuries can be reduced if you follow easy steps to planning a safe fire escape route. If you need help to plan your route, please contact the local fire department in your community.

In the event
of a fire,
REMEMBER:

- Respond immediately to the smoke alarm.
- Don't risk your life to take possessions with you.
- Always crawl under the smoke to escape a fire.
- Never go back into a burning building.
- Stop, Drop, and Roll if your clothes catch on fire.
- Go to the family's meeting place.
